PROFILE

IT undergraduate and experienced Merchandising professional. Confident and competent in all basic IT fundamentals. Analytical mindset, creative, curious problem solver, team player, excellent communicator, people centered. Seeking employment opportunities and graduate programs in Web Development where I can continue to develop new skills while building on my existing experience and recent training.

KEY SKILLS

Web Development:

- HTML / CSS / SCSS & Java Script
- Operating Systems: Windows / Linux Mint
- Version Control: Git / GitHub
- Package Management: Experienced in utilizing npm (Node Package Manager)
- Web Architecture & Networking
- Backend: Java for server-side development and SQL for database management.
- Excellent customer service and communication skills
- Detail oriented
- Logical and analytical / Growth mindset

Bilingual: Fluent in English and Portuguese. In 2017, I began a self-taught journey to learn the English language. Through dedication and passion, I achieved proficiency, Leveraging my international career pursuits. That reflects my initiative for acquiring new skills independently.

EDUCATION TRAINING

2021 – Present, CCT College Dublin, 30-34 Westmoreland Street, Dublin 2.
          Bachelor of Science (Honours) in Information Technology – NFQ Level 8.
          https://www.cct.ie/course/bachelor-of-science-honours-in-computing-and-it/

Projects: **Online Portfolio:**

          I built a dynamic portfolio website showcasing my web development skills using HTML, SCSS, CSS, and JavaScript. Used Figma for designing user-friendly navigation, mobile responsiveness, interactive elements, and a convenient contact form with google ReCAPTCHA along with real-time JS validation and CSS.

          Compatibility: I have used (BrowserStack.com) to ensure that is well rendered in other browsers such as Edge, Google, Firefox and Safari.

          Evidence: https://github.com/FranklinArruda/my-portifolio

Desktop App:

Recently, I developed a cross-platform desktop app as a college project. The app helps individuals purchase items by offering flexible installment plans + a unique feature to determine comfortable payment amounts. It's simple, but with really cool features!

This system facilitates user input integration with an internal database. Each transaction receives a unique ID for easy retrieval.

Tax Calculator: Working Progress

As my interest in web development grew, I also took the initiative for building projects on the back-end using Java and MySQL to leverage my skills as front-end developer. Below are the link for this project, as well as its features:
